

Access to eChart 2022 will begin in November.

Go-live Overview

Direct Web Browser

- **Shared Health managed sites/users:**
A limited pre-release of eChart 2022 is planned for November 7, 2022, at 09:00 hrs. Impacted workstations will display eChart 2022 (Pre-Release) at log in. If you log in before 0900 hrs., you may not see the change until you log back in.
- **All other sites/users:**
eChart 2022 will be available to all eChart users using a supported web browser on November 14, 2022 at 09:00 hrs.

Token

- External access to eChart 2022 (via token/FOB) is underway and will be available at a later date. Details will be shared as they become available.

Electronic Medical Record (EMR) eChart launch button

- **Regionally managed sites/users:**
eChart 2022 integration is underway for regionally managed EMR instances. Details will be shared as they become available.
- **Non-Regionally managed sites/users:**
Contact your vendor about how to access eChart 2022 once it becomes available on November 14, 2022.

Electronic Patient Record (EPR) integration

- EPR integration with eChart 2022 is underway and will be available at a later date. Details will be shared as they become available.

EMR and EPR users can still access eChart 2022 directly using a supported web browser.

Training

We strongly recommend all users watch the 20-minute eChart 2022 Navigation Training Video, available at <https://echartmanitoba.ca/hcp/training/>. If you have further training questions, you can register for a “Your Questions Answered Live” session with an eChart trainer. A link to the registration form is provided at the end of the eChart 2022 Navigation Training Video.
