

Pathology results in eChart

The Pathology results available in eChart include Surgical Pathology, Cytology (including Gynecological and Non-Gynecological), and Neuro Surgical Reports received from Diagnostic Services, Shared Health.

Pathology results in eChart are found under the Pathology tab. eChart users with access to Laboratory results are also able to view these results.

To view Pathology results in eChart, follow these steps:

1. Click on the Pathology tab to display the list of Pathology results for the selected patient.
2. To view the report for a result displayed, you must click on the report icon on the result row.

Pathology results in eChart (cont.)

Additional information

As shown in Image 1, the Report Date column for Pathology results displays the date the results are signed out by the Pathologist. The Report Status column displays the status type of either Final, Corrected or Addendum. The Report date is updated when there is a change in the Report Status to either Corrected or Addendum.

The Conclusions, Findings and Related Documents sections of the Pathology tab will not display any information.

To print a report: Click the printer icon on the floating toolbar.

You may need to hover over the top part of the window with a mouse cursor to display the toolbar. Ensure that you adhere to your site printing and privacy policies.
