

Beginning Dec. 7, 2023, the Medication Card located in the List Pane will display Form (1), Duration with units (2), and Dispensed quantity (3) as shown in the screenshot below. This change allows users to view these details without having to click the card to view the Detail Pane. This is a short-term solution to address user challenges viewing medication history. We continue to work with the vendor to further address user feedback. Please share this message with your eChart users.

The screenshot shows the 'MEDICATIONS' list pane in eChart. A medication card for 'AZITHROMYCIN (AZITHROMYCIN DIHYDRATE) [250 MG]' is highlighted. Three callouts are present: 1 points to the 'Form' (Tablet), 2 points to the 'Duration with units' (7 D), and 3 points to the 'Dispensed quantity' (8). The card also shows the date '04-May-2023' and 'Dispensed 8'. Below the card, another medication 'JAMP-AZITHROMYCIN {AZITHROMYCIN (AZITHROMYCIN DIHYDRATE) [250 MG]}' is partially visible.

1. Form  
2. Duration with units  
3. Dispensed quantity
