

As of May 23, 2024, CancerCare Manitoba ColonCheck Fecal Immunochemical Test (FIT) results performed by Cadham Provincial Laboratory will be available in eChart Manitoba. These results will display in the Labs: Biochemistry list pane.

Note: CancerCare Manitoba ColonCheck Program will remain responsible for communicating FIT results to patients and making colonoscopy referrals for patients with abnormal test results. The appropriate provider(s) will be copied on all reports.

Visit the [eChart Manitoba website](#) to learn more about the other sources of information available in eChart.
