

Printing Quick Reference Guide

Table view

Use Table View to multi-print from a single clinical domain - Encounters, Medications or Labs

- Step 1** Select the clinical domain in the list pane, then the Print icon
- Step 2** Select each box for the items to print or select all
- Step 3** Click Print

The screenshot shows the 'Table' view in eChart Manitoba. On the left, a sidebar contains 'ENCOUNTERS', 'MEDICATIONS', and 'LABS'. The 'MEDICATIONS' category is selected. A notification bubble states '4 Items Selected to Print'. A table lists various medications with checkboxes in the first column. A red circle '2' highlights one of the checkboxes. A 'Print' button with a red circle '3' is located in the top right corner of the table area.

Category view:

Use Category View to multi-print from multiple domains
Three (3) print options are available:

1. Print a single result

- Step 1** Select the card
- Step 2** Click the printer icon in the top right-hand corner

The screenshot shows the 'Category' view in eChart Manitoba. A card for 'PANTOPRAZOLE (PANTOPRAZOLE (PANTOPRAZOLE SODIUM SESQUIHYDRATE) [40 MG]) (03-Jun-2025)' is displayed. The card includes details like Medication Name, Form (Tablet, Delayed Release), Date (03-Jun-2025), Duration (90 D), Dispense (90), and Facility (PHARMA PLUS). A printer icon is visible in the top right corner of the card area, highlighted with a red circle '2'.

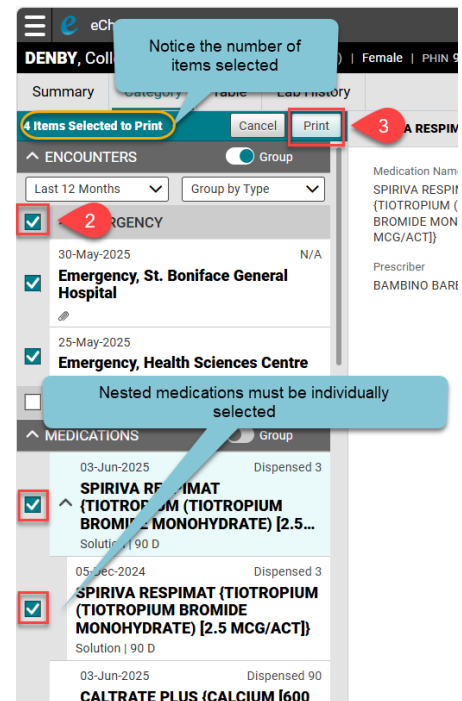

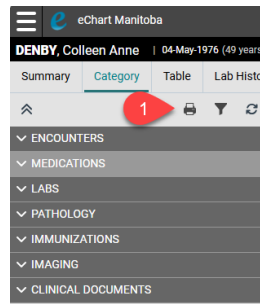

2. Print a single report

- Step 1** Select the card
Step 2 Click the printer icon in the top right-hand corner in the report view

3. Print multiple items

- Step 1** Click the printer icon at the top of the list pane
Step 2 Select the clinical domains and or boxes of items to print
Step 3 Click the Print button

TIPS:

- Medications are grouped by the Anatomical Therapeutic Classification (ATC) category and Drug Identification Number (DIN). For each DIN, the most recent dispensed medication is displayed. Select each nested medication for printing.
- Immunizations with comments will print with vaccine information.

Summary view

Use Summary View to print a single result

Step 1 Select the card

Step 2 Click the printer icon in the top right-hand corner

Note: Medications have nested information

The screenshot shows the 'Medications' section of the eChart interface. A card for 'APO DIMENHYDRINATE TAB 50MG (DIMENHYDRINATE [50 MG])' is selected. The card's detail view is open, showing a table with the following information:

Medication Name	Form	Date	Duration	Dispense	Facility
APO DIMENHYDRINATE TAB 50MG (DIMENHYDRINATE [50 MG])	Tablet	03-Jun-2025	90 D	90	PHARMA PLUS

Additional information shown includes the date '03-Jun-2025' and the source 'Drug Program Information Network'. A printer icon in the top right corner of the card's detail view is highlighted with a red circle and the number '2'.

Print a single report

Step 1 Select the card

Step 2 In the report view, click the printer icon

The screenshot shows the 'Encounters' section of the eChart interface. A card for 'Emergency, St. Boniface' is selected. The card's detail view is open, showing a table with the following information:

Type	Facility	Admission Date	Attending On Record	Discharge Date	Encounter ID
Emergency	St. Boniface General Hospital	30-May-2025 13:06	Lobato de Faria Ricardo Jorge	30-May-2025 14:32	11013664

Additional information shown includes the date '30-May-2025' and the source 'EPR'. Below the table is an 'ER Discharge Summary' section. A printer icon in the bottom right corner of the report view is highlighted with a red circle and the number '2'.
